

Touchscreen Core

Skimp-free quality that fits your budget.

Works just like a tablet, so teachers already know how to use it.

Full-feature screen with an Octa-core processor, 8GB RAM, and 128GB storage at a price that makes sense.

Elevate your teaching work flow with bite-size apps and AI tools made for teachers: create lessons, record, annotate, transcribe, generate a quiz, and more.

Experience school-ready reliability with Android 14 and EDLA. Get advanced security with Google single sign-on and AMS directory.

SOFTWARE AND APPS

ONBOARD TOUCHSCREEN TOOLS

Interactive Whiteboard

Write is a powerful whiteboard with cloud drive integration, built-in browser, multiple pens, text recognition. You can also drop lessons from OneScreen Lessn directly into the Write whiteboard tool.

Screen Sharing

Share allows screen sharing and streaming from up to 30 devices (iOS, Android, Windows, Chrome, MacOS).

Smart Screen Tools

Discovery and search tools include AI Chatbot and Smart Select available on screen anytime.

Go-To Classroom Tools

Stopwatch, timer, screen recorder, spotlight, screen capture, cloud drive, freeze and multitasking.

APPS FOR ANY DEVICE

Transcription / Translation / Notes

Scribe Scribe delivers real-time closed captions, and translation in 28 languages, AI-driven transcription, summaries, and topics generation. (microphone needed)

SuprNotes seamlessly integrates with Scribe to create a smart summary of your lecture, including transcription, annotation, voice, on-screen videos, and documents.

Easy, Real-time Polling

QuizWiz delivers editable, real-time polls and quizzes in seconds using your trusted content. Integrated with Google Drive and Google Forms. Save and share results.

Simple Lesson Creation

Lessn helps teachers build standards-based lessons or create their own AI-driven lessons.

TOUCHSCREEN USAGE & CONTROL

Secure User Accounts

Your **Account** integrates Google Accounts and cloud drives for each user. It also supports NFC card and QR code login.

Control that Mimics Your Phone

User interface design that feels familiar. Swipe up, down and side to side. Customize floating toolbars. Use your finger, stylus, voice, or remote.

Push Button Notifications

Beacon allows users to send customizable notifications via email, phone, and text using an optional Beacon card.

Centralized Management

Get centralized control of settings, policies, and applications for your touchscreens, as well as message broadcasting.

*All software, apps and tools are free for the first year or perpetual.
